Description

Bootbox confirm modals currently use default style and strings.

Two things can be improved:

- text: we can set the buttons texts. (Currently the default has strange translations in french : "D'accord")
- style: we can set some specific classes, like btn-danger for deletions.

Notes:

- We're using bootbox 3.x. Here's the doc: <http://bootboxjs.com/v3.x/documentation.html>
- Bootbox locales:
Bootbox locales are very simple: 3 string only.
If needed we can use addLocale method (that allows override of existing locales), and set it with esaySDI translated strings.

```
bootbox.addLocale('fr', {  
  OK : 'OK',  
  CANCEL : 'Annuler',  
  CONFIRM : 'Confirmer'  
});
```

- When we need custom text on buttons (but standard classes) :

```
bootbox.confirm('Est-tu vraiment sûr??', 'Annuler', 'Ouais, super sûr de moi!', function(e){alert('plop')});
```

- For custom classes, I think we have to make a custom dialog :

```
bootbox.dialog("Voulez-vous supprimer ?",  
[
```

```
"label" : "Annuler"

}, {
  "label" : "Supprimer",
  "class" : "btn-danger",
  "callback": function() {
    alert('now delete !');
  }
}
});
```
