<b>Category:</b>	SHOP	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.4.0	<b>Ergonomic impact:</b>	New views available
<b>Sponsor:</b>			
<b>Functional impact:</b>	None		

#### Description

We developed front-end modules for our usage of SHOP:

- One displaying the 5 last order
- One displaying the 5 last pending requests

They also offer a link to complete lists (orders and requests)

Are you interested in merging the in easySDI ?

Work todo would be :

- Change some strings (translation prefixes, reuse a maximum from SHOP)
- Move the tables row rendering from Views to Layout in the SHOP component (/components/easysdi\_shop/layout) to reuse them
- Update the build process (ANT)

Producing the same for validation would be easy.
