

easySDI - Enhancement #1211

make '-copy' order names a little smarter

12/01/2015 11:34 AM - Blatti Yves

Status: Closed	Start date: 12/01/2015
Priority: High	Due date:
Assignee: Battaglia Marc	% Done: 100%
Category: SHOP	Estimated time: 0.00 hour
Target version: 4.4.0	Ergonomic impact: avoid very long names in order, increase readability
Sponsor:	
Functional impact: none	
Description	
When we copy an order, the name has a 'copy' appended , but a copy of a copy gives '-copy-copy' and so on...	
We could detect this case and make a little smarter : 'copy-1', 'copy-2', etc.	

History

#1 - 12/04/2015 11:08 AM - Van Hoecke Hélène

- Status changed from Request For Comments to Accepted
- Assignee changed from Technical Committee to Blatti Yves

TC has accepted the new naming strategy.

#2 - 01/19/2016 06:20 PM - Blatti Yves

- Status changed from Accepted to Affected
- Priority changed from Normal to High

#3 - 01/21/2016 12:19 PM - Blatti Yves

- Status changed from Affected to Resolved
- % Done changed from 0 to 100

rev. 9416

For info: the new name is calculated from the order that is copied, we don't do a String based SQL query (heavy for little benefits, and order names do not need to be unique).

Original name to copy name :

Original	Copy
MyOrderName	MyOrderName - copy
MyOrderName - copy	MyOrderName - copy 2
MyOrderName - copy 2	MyOrderName - copy 3
MyOrderName - copy 99	MyOrderName - copy 100
and so on	...

#4 - 02/02/2016 10:50 AM - Blatti Yves

- Status changed from Resolved to To merge

#5 - 02/02/2016 10:53 AM - Blatti Yves

- Assignee changed from *Blatti Yves* to *Battaglia Marc*

#6 - 02/02/2016 03:52 PM - Battaglia Marc

- Target version set to *4.4.0*

#7 - 02/02/2016 03:53 PM - Battaglia Marc

- Status changed from *To merge* to *Closed*
