<b>Description</b>	
Following this fix : <a href="https://forge.easysdi.org/issues/1333">https://forge.easysdi.org/issues/1333</a> .	
A solution has to be found to allow metadata publication from the resource list. According to the problem met, it seems that a status is missing in the metadata life cycle : a single "validated" status exists, but two are needed "validated by editor" and "validated by publisher".
