Functional impact:			
Description			
In the edition forms it would be better if the fields (type = text) will be wider. Fields were wider on V3 (see enclosed FeldBreiteV3 and FeldBreiteV4).

- File asitvd_md_edit_css.png added

Hi Raphaëlle, pleased to see you on the forge !

In my opinion, this should be fixed by template CSS, since everyone will have different needs.

As an example, at asitvd.ch we have customized fields for :

- wider area
- right aligned
- icon for tooltips
- bold for mandatory fields

(easySDI has classes ready for this type of customization.)

Our form as example:

✓ Sauver ▾ Outils ▾ Fermer

INFORMATIONS PRINCIPALES

Tout fermer

    margin-left: 4px;
  }
}
.well{
  box-shadow: none;
  background: none;
  border: none;
}
}

```

- File *asitvd_edit.less* added
- Assignee changed from *Van Hoecke Hélène* to *Arnaud Raphaëlle*

Here is the LESS file (since redmine broke some characters).

Don't hesitate to ring or mail me if you need more!

HIH, regards

PS : If you really prefer to propose an enhancement of easySDI, you have to assign it to "Technical Committee".
Enhancement have to be voted first.

#3 - 11/04/2016 12:09 PM - Blatti Yves

- Priority changed from *Urgent* to *Normal*

Hi Raphaëlle !

Any news ?

- is the proposed 'custom css' solution OK for you ? (This issue can be market as 'rejected', but we should add some of this content in the wiki help)
- or do you think something need to be done is easysdi components ? (in this case, the issue must be completed, assigned to technical committee as 'request for comments')

Thanks
