

## easySDI - Feature #301

### Monitoring capabilities changes

02/04/2011 04:41 PM - Portier Thomas

<b>Status:</b> New	<b>Start date:</b> 02/04/2011
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> MONITOR	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Ergonomic impact:</b>
<b>Sponsor:</b>	
<b>Functional impact:</b>	
<b>Description</b>	
Add the capability of detecting changes in capabilities of a wms/wfs service. An email could be send if the number of layer has changed or if a layer name has changed.	

#### History

This is a very nice idea and surely convenient feature, Thomas !

Could you describe it a bit more and explain what you have to detect specifically in Getcapabilities changes (added/deleted layers, change in layers names, etc...).

If you have any use case to describe, it would be of great help to understand better the need and use of this feature.

I see it as a very interesting new feature for the MONITOR.

Danemark may also be interested to know more about it...

##### #2 - 03/26/2014 10:34 PM - Magoni Bruno

- Project changed from MONITOR to easySDI
- Category deleted (Java servlet)
- Target version deleted (Future)

##### #3 - 04/02/2014 12:09 PM - Portier Thomas

- Category set to MONITOR
- Target version set to Unplanned

##### #4 - 07/17/2014 09:15 PM - Magoni Bruno

- Target version deleted (Unplanned)
