

easySDI - Feature #591

Saving and loading cartographic context

02/01/2013 02:09 PM - Magoni Bruno

Status: New	Start date: 02/01/2013
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: MAP	Estimated time: 0.00 hour
Target version:	Ergonomic impact:
Sponsor:	
Functional impact:	
Description Goal is to save cartographic context through MAP component and: <ul style="list-style-type: none">- load it again for authenticated users- display it inside MAP component with a specific link (i.e. http://www.myeasysdi.org/map?context=gfd8gdg4fgf0), even for public users	

History

#1 - 02/01/2013 02:10 PM - Magoni Bruno

- Target version changed from Unplanned to 134

#2 - 02/01/2013 02:31 PM - Mérour Xavier

What about using Web Map Context from OGC ? shouldn't be better ?

Or are there some technical limitations ?

#3 - 10/17/2013 12:26 PM - Magoni Bruno

- Target version changed from 134 to 4.0.0

#4 - 03/25/2014 04:19 PM - Magoni Bruno

- Target version changed from 4.0.0 to Unplanned

#5 - 07/17/2014 09:17 PM - Magoni Bruno

- Target version deleted (Unplanned)
